Receiver for RENISHAW measuring probe

Productivity | Precision

Series

H | F | C | HF | MCH | MCH-C | MC | MCi | MCP-H | MCS | BEA

Control

FANUC | SIEMENS Powerline | SIEMENS Solutionline | uni-Pro 90

This interface is required for use of the RENISHAW measuring probe.

Characteristics

_ Interface for use of the RENISHAW measuring probe
_ Requirement for the use of measuring probes in the work area
_ Including HELLER measuring cycles

Benefits

_ More process reliability: no lengthy process interruptions due to complex troubleshooting, continuous quality control
_ More machine safety: machine safety for unmanned production
_ More precision: direct error detection and automatic correction

Requirements

_ In conjunction with a RENSHAW measuring probe
