Productivity | Production Monitoring

Series

H | F | C | HF | MCH | MCH-C | MC | MCi | MCP-H | MCS | BEA

Control

SIEMENS Solutionline | SIEMENS Powerline | uni-Pro 90 | FANUC | SINUMERIK ONE

In the fast and frequently frenzied world of day-to-day production, you need to be able to see at a glance if your machine tools are running without errors or intervention is required. The status lamp gives you a clear signal at all times. The lamp is clearly visible in all positions. If the lamp does not illuminate green, an immediate response is possible.

Characteristics

_ Status lamp red: machine fault
_ Status lamp orange: workpiece loading required
_ Status lamp green: machine in production

Benefits

_ Better overview: machine status can be seen at a glance at any time
_ Shorter downtimes: fast troubleshooting thanks to immediate error message
_ Lower costs: fast response, short machine downtimes
