Screen blow-off device

Productivity | Operation

Series

H | HF | MCH | MCH-C | MC | MCi | MCP-H

Control

FANUC | SIEMENS Powerline | SIEMENS Solutionline | uni-Pro 90 | SINUMERIK ONE

Keeping a regular eye on the work area provides a quickoverview of the machining process. The screen blow-off deviceensures a clean screen and easy control of thework area.

Characteristics

_ Air nozzles attached to side of screen
_ Separate blow-off of operator door possible at any time
_ Operation by footswitch

Benefits

_ Unhindered view into the work area at all times
_ Reliable control of the machining process
_ Particularly suitable for processes which require large quantities of coolant
