Enabling network drive via services function

Productivity | Operation

Series

MCH | MCH-C | MCi

Control

SIEMENS Powerline

Alongside fast and direct access to server data, networking machines offers the advantage of secure data transfer. The spread of malware on USB sticks is prevented.

Characteristics

_ Direct copying or loading of NC programs from a server or a programming station

Benefits

_ More convenience: faster, more direct and secure access to NC programs

Requirements

_ SIEMENS Powerline
