We are setting new standards in efficient work area lighting for your HELLER machine using the latest LED technology. Meaning that glare-free light ensures an optimum, homogenous illumination of the work area. This allows you to work on the machine, especially when retracting workpieces, without becoming fatigued

Characteristics

_ Glare-free light for optimum, homogenous illumination of the work area

Benefits

_ LED produces a higher light yield with a fivefold service life
_ Maximum brightness - 100 % immediately after switch-on
_ Up to 33 % saving on energy costs
_ Flicker-free light
_ Precise light guidance without reflectors
_ Uniform illumination of the work area
_ Low heat development
_ Impact and vibration resistant
_ Practically maintenance-free
